Date: Thursday 25th of September 2025

Time: 17.00 | 17.15 start

Location: Vergulde Kruik, Leiden

General Assembly 25th of September

Attendees: 13th 25th board of StOP, 14th 25th board of StOP, Emile, HSVL, Syntax, Exon, Labyrinth, Gibaloux, Tanuki, B.I.L., SPIL, audit committee

1. Opening

17:21

2. Setting the agenda

Wiebe: Can you zoom in a bit?

No further additions.

3. Round of Introductions

Jelle: Round of introductions. Fun.

I'm not putting this in the minutes xx.

4. Announcements

Jelle: Roald told us that we failed to send you the minutes. We just send them before the GA. You have two seconds to read them. Look at them if you want to.

After the GA drinks on a small budget.

Jelle send the fundbooklet. If anything is wrong, let him know. Let Jelle or Emma know about KleVer and GroVer if you're not in the groupchat.

Jochem: Sign your name in the back, so we know you're here.

5. Approving the minutes of the Interim-GA

Jelle: Vote per association.

Great. Jelle thinks so too.

8 in favour, 0 against, 0 neutral.

6. Received documents and mail

Nothing came in.

7. Final report of the 13th 25th board of StOP

I forgot I had to write minutes for a minute... oops.

Jelle: For GA's people are not really actively participating in the GA's, but are in other StOP initiatives. Try to enthousiase other boards for the GA.

Audit committee did their checks, RvA went differently.

Mick: yay assessoren.

Emma: Mick hou je bek.

Jelle: had contact with LASSO and Emma will continue. University and HS were bad in contact. Recurring issue. Infaco was cancelled, added the soccer tournament. We will announce the StOP cup winner.

Jelle:

- AVG, but also WBTR because of lots of questions → next year national policy. Suzanne next year.
- BHV was a bit different. The courses were completely full this year. 90 spots + some english spots. Lots of associations wanted more BHV'ers. That wasn't possible due to lack of money. Trying to get more funding for next year.
- GroVer was fun. Most of the time all the associations.
- KleVer was the same basically. Started of strong, but Jelle was demotivated by the attendance in march, so he didn't organize another.
- Leidsch Debat was fun on climate change in the NL in the RMO. attendance was not that great, but was fine. We were able to get subsidies, but IFI has not paid us, but we're not able to contact them. Right now, we're missing 500 euros. The employee who does this is also responsible for the boardmonths, so maybe also delay on that.
- Sports tournament was also a lot of fun. Next board will probably continue this.

Sarah:

- Board Activity 2 times. Borrelboot and borrel.
 - Mick: more people next year.
 - Sarah: come next year.
- VCP some associations find out too late. But sign up.
- We send one newsletter. Next board maybe send more and let people know what we do.
- Internationalisation: Van Bergen is under LUF. No real interest in the InFoFe activity in the committee. Advise the new board to do something new.
- Student wellbeing is high on the agenda. We're in multiple meetings with associations and the municipality.
- We discussed the guide a lot. It's not working and no purpose. New board is still doing it though. Maybe some changes.

Svea:

- D&I is more to have a contactperson. Didn't really do a lot.
- InFaGa was a lot of fun in february. First gala. Looking forward to this year.
- PLNT is the entrepreneurship hub in Leiden. We continued the partnership. We could organize workshops here. Some issues in communication. Our contactperson was PLNT students board. Hopefully communication will go better.
- Promotion and acquisition are the two workshops for the new boards. Very helpful. So sign up if you see the promotions.
- Sustainability is similar to D&I.

Jochem:

- Alumni was meant as contactperson, but then nothing happened. Recommend scrapping it.
- Commissie Overlap and introduction week discusses schedules and stuff like KMT and EJW. signs an agreement with the rules for the year. Not a lot was discussed.

Agreements were signed again. Actively tell StOP if someone goes against the agreement.

Introduction weeks → study association blocks. How this could be done. Included some associations on how to do this. Went pretty well. But no evaluation yet.

- National platform → trying to attend meeting with other umbrella associations. We did 3 or 4 meetings. Bit of a loose organization, but trying more. Document has been made to centralize information how different institutions → was even afgeleid.
- Social media and website was mostly kept up to date. Posting stuff on the insta, the linktree and the website was changing the pictures, text and logo's. Also added the declarations we signed. Student wellbeing still needs to be added.
- InFaFe was great. Made a marginal loss. Jochem made a whitepaper in the drive. Should help with next year. Will be great → for next year Suzanne.

Realisation and balance:

Svea: generally speaking very happy with the finances. We made a 700 euro profit. Under income LUF and IFI were used → funds nice because small budget. More contribution than the year before, very happy that people payed their membership fees. If they didn't pay, they're now inactive.

Janneke: Do I understand correctly that IFI was not realised yet?

Svea: they're in the debtors area.

Svea: expenses went as expected.

Lili: 200 euros for wellbeing, but nothing has been realised.

Svea: In the beginning we wanted to do something on this or if something popped up, but in the rebudget we already decided not to spend any money.

Janneke: membership funds go almost entirely to the board activities. Is that a good way to spend the money?

Jelle: connection between the board members is important for StOP, but it's up to you, the GA, what to think about that for the next budget.

Svea: go over the balances. On the debit sight we still have some debtors. We should receive the money. On the credit sight we have some reserves.

No questions.

Audit committee

Dear Board, dear Members of the General Assembly, dear Attendees,

On Friday the 12th of September, on behalf of the Audit Committee of the Studievereniging Overleg Platform, we carried out an audit of the bookkeeping of the financial year (running from 01-09-2024 to 31-08-2025) and of accompanying 9th chapter of the final report "Realisation & Balance". Beforehand, the treasurer, S. Drose, handed over incoming invoices, all outgoing invoices, the bank statements, the statement of income and

expenditure, and the balance sheet as of 31-08-2025, and during the audit, she answered all our questions on these documents.

Based on this audit we would hereby like to report in accordance with Article 11.5 of the Statutes our findings:

Our report states that the balance sheet per 31-08-2025 and statement of income and expenditure are correct from an accounting point of view. However, it should be noted that the subsidy from IFI seemed to have been misplaced when the wrong bank account number was communicated. For now, it is still an outstanding debtor or accounts receivable, however, should the money not be sent to StOP due to this clerical error, it will result in a less profitable result for 2024-2025. Other than this, nothing of note was discovered, and to reiterate: the balance and statement of income and expenditure are correct.

This is not an opinion on the realisation, or the financial policy pursued, only an approval of the way these data have been processed and shared in the convocation with the members. Having an opinion on the realisation and result is not for the audit committee, but for the members of the StOP's general assembly.

Sincerely,

W.J. Uilenreef

R. Uppelschoten
